BECOMING TOBACCO-FREE: THE LGBTQ COMMUNITY & TOBACCO

LGBTQ communities are among the populations most severely impacted by tobacco use.

OVERCOMING CRAVINGS

EVERYONE HAS DIFFERENT CRAVINGS so find the coping strategies that work best for you. Some suggestions include:

- Talk a walk/run
- Ride a bike
- Chew gum
- Chew a toothpick
- Drink water
- Read a book
- Call a friend
- Exercise
- Eat a healthy snack
- Yoga
- Deep breathing
- Brush your teeth
- Read tobacco cessation materials
- Play with a pet
- Play a game
- Call a friend

Revised 10.2014
IF YOU ARE CONSIDERING A LIFE WITHOUT TOBACCO, this brochure is for you. This brochure addresses barriers to quitting, information on how the tobacco industry specifically targets the LGBTQ community, tips for overcoming cravings, and resources for cessation in your community. CONGRATULATIONS! YOU ARE TAKING THE FIRST STEP TOWARD A HEALTHIER LIFE!

KNOW THE FACTS
The American Cancer Society estimates that over 30,000 LGBTQ people die each year of tobacco related illness. An early tobacco industry document described the plan for increasing sales among San Francisco’s gay and homeless population; it was labeled “Project Scum.” In the U.S., tobacco kills more people each day than AIDS, alcohol, car accidents, suicides, & illegal drugs combined. Tobacco companies continue placing ads in gay and lesbian targeted magazines that specifically appeal to LGBTQ populations and present tobacco use as sexy and a way to be independent or rebellious. Segments of the LGBTQ community have been called an “area of opportunity” by Philip Morris. The tobacco industry has created an eight billion dollar LGBTQ community direct marketing campaign to attract new users.

PREPARING TO QUIT
IF YOU’RE PREPARING TO QUIT, TRY USING THE START METHOD:
S
Set a quit date
T
Tell family, friends, and coworkers that you plan to quit
A
Anticipate and plan for the challenges
R
Remove cigarettes and other tobacco products from your home, car, and work
T
Talk to your doctor or a campus cessation coach about getting help & nicotine replacement gum or patches

WATCH OUT!
Anything that you associate with smoking or using tobacco that causes you to have a craving can be considered a barrier. Watch out for these barriers on the path to your tobacco-free lifestyle, and try to break them down so they don’t continue to give you trouble. Some common barriers include:

<table>
<thead>
<tr>
<th>COMMON BARRIER</th>
<th>POSSIBLE SOLUTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Social Events (where smoking is allowed)</td>
<td>Stay inside when your friends go out to smoke, go to non-smoking bars and restaurants only</td>
</tr>
<tr>
<td>Drinking coffee or alcohol</td>
<td>Try soda or tea as a caffeine source, set a limit on your alcoholic drinks so you stay in control</td>
</tr>
<tr>
<td>Driving</td>
<td>Try walking, taking the bus, carpooling with a friend, or biking</td>
</tr>
<tr>
<td>Boredom</td>
<td>Call a friend to hang out, work out, play a game on your phone or computer, or read a book</td>
</tr>
<tr>
<td>Stress</td>
<td>Try deep breathing exercises, work out, or talk to a friend about your stress</td>
</tr>
</tbody>
</table>

GET HELP QUITTING!
Contact your student health center or campus prevention office to meet with a cessation coach.
The local health department in your community or your physician may also be able to identify resources to help you quit.
