

START is Missouri's statewide training site for college students who want to learn more about how to host safe parties and reduce their alcohol-related liability.

By using START, college students can learn important information on a variety of topics from how to understand Missouri's liquor laws to how to control unruly or unwelcome guests. The START program is a valuable resource for students who would like to host parties at their residence or at other location, without causing problems for their guests or others.

LET'S GET THE Party STARTed!

<http://pip.missouri.edu>

Revised 9.2011

Student Alcohol Responsibility Training (START) is an online training program that will give you tips on how to avoid problems related to alcohol at your next party or student organization event.

Program sponsored by the Missouri Department of Transportation, Highway Safety Division.

Everybody wants to throw a great party, but many terrible consequences can arise from an event that was planned to be fun, but ended up with police visits, complaints from neighbors or a medical emergency.

From bothering neighbors to enabling a drunk driver, many terrible consequences could arise from an event that was only supposed to be fun.

START is an online training program that covers necessary steps party hosts can take to deal with problems that arise, or avoid them altogether.

Did You Know: What Makes a Party Fun?

From a randomly sampled survey of over 1,000 students at a Midwestern university in 2007, the following were found to be the top things students answered when asked **'What makes a party fun?'**

- 1. 75% being with friends**
- 2. 66% the atmosphere**
- 3. 64% the music / entertainment**
- 4. 45% meeting new people**
- 5. 40% dancing**
- 6. 36% the food**

All of these were answered more often than alcohol. Keep this in mind when planning your next event.

START covers many topics, including the following:

- **General Party Safety**
- **Alcohol and Your Party**
- **Preventing MIP's**
- **Plans to Address Intoxicated Individuals**

Campus Administrators

Many Missouri college campuses use START as a required training for student organizations or in response to a policy violation. Campus administrators can now track which individuals and student groups complete the START training on their campus.

Please contact Partners in Prevention at 573-882-4634 to learn more.

Individuals who use START are required to complete a short quiz at the end of the training.

Participants who complete the quiz at the end of training and earn an 80% will receive a certificate of attendance.

To logon to take the training, visit <http://startcollegeservertraining.com> to setup a profile and begin the training.

The START training program takes about 45 minutes to complete.

Did You Know?

Friends are the most important influence when convincing someone to stop drinking or to leave a situation when they have had too much to drink. So, if a guest is intoxicated at your event try to recruit their friends to help stop service and find the individual a safe ride home.

If you are concerned about someone's drinking, STOP and ACT.

The person could do things they regret or experience serious medical complications from their drinking, such as alcohol poisoning.
